The following Fiscal Impact Statement and Bill Analysis are prepared for the benefit of the members of the General Assembly, solely for purposes of information, summarization and explanation and do not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst's professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.

OFA Fiscal Note

State Impact:

Agency Affected	Fund-Effect	FY 11 \$
Department of Transportation	TF Bonds - Savings	1,395,000

Note: TFBonds=Transportation Fund bonds

Municipal Impact: None

Explanation

Waiving certain height requirements for the Broad Street highway bridge in Hartford is expected to reduce the cost of replacing the bridge by approximately \$1.4 million. Since project is part of the New Britain-Hartford Busway, which is being financed with both federal and state funding (Special Tax Obligation (STO) bonds), it is unclear how much of the \$1.4 million savings will be STO bonds. The total projected cost of the project is \$569 million, with an estimated \$455.2 million in federal funds and \$113.8 million in STO bond funds.

The Out Years

The annualized ongoing fiscal impact identified above would continue into the future subject to inflation.

OLR Bill Analysis**SB 411*****AN ACT CONCERNING THE REPLACEMENT OF THE BROAD STREET BRIDGE OVER THE AMTRAK RAILROAD TRACKS IN HARTFORD.*****SUMMARY:**

This bill authorizes the Department of Transportation to replace the Broad Street Highway Bridge (bridge number 03629) over the Amtrak railroad tracks in Hartford with a new bridge with a minimum overhead clearance over the tracks of 19 feet, four inches. The law generally requires a minimum overhead clearance of 20 feet, six inches for any structure above railroad tracks.
